People For Animal Welfare

World Animal Protection has a multi-pronged approach to improving the lives of animals. Our programs include protecting animals and creating a better quality of life for animals . Why is animal welfare important? Animal welfare is important because there are so many animals around the world suffering from being used for entertainment, food, medicine, fashion, scientific advancement, and as exotic pets. Every animal deserves to have a good life.

Sometimes the difference between life and death is YOU. Adopt, Rescue, Foster, Transport, Sponsor, Donate, Volunteer, Educate, Care. DONT WALK AWAY. ADOPT if you can't adopt , FOSTER if you can't foster , VOLUNTEER if you can't volunteer DONATE , if you can't donate , EDUCATE . Everyone can do something to help save lives.

CONCLUSION

Through our project we can rescue animals as well as we can adopt and rescue stray animals. We only created prototype, we believe in future we can add so many features and make it a great platform.

Thank you
